

ADVANCED AIR STRENGTHEN SENIOR TECHNICAL MANAGEMENT TEAM WITH THE APPOINTMENT OF GERRY BUTLER AS ENGINEERING MANAGER

Advanced Air, manufacturers of a wide range of air distribution systems, has strengthened its Senior Technical Management Team with the appointment of Gerry Butler, Engineering Manager. In this role Gerry will be focussing on all of the new product developments Advanced air are planning to bring to the market, including many additions to its fan coil range.

Gerry has over 35 years experience in the industry working for both consulting engineers and manufacturers.
